

Satyam Saxena

Jaipur, Rajasthan, 302021 | Ph. No. : +91 9351644452

PROFILE

I am a passionate Computer Science and Engineering student with a strong foundation in Java, C and SQL. I am eager to apply my programming skills to real-world projects, particularly in Java development, backend engineering, and software development. Actively seeking an internship opportunity where I can contribute, learn, and grow in a dynamic technical environment.

EDUCATION

Kalinga Institute of Industrial Technology, Bhubaneswar Bachelor of Technology - Computer Science [CGPA : 7.18]

Coursework : Artificial Intelligence, Machine Learning, Object Oriented Programming, Software Engineering, Cloud Computing.

St. Anselm's Sr. Sec. School, Jaipur, Rajasthan (CBSE), 2022 - Percentage - 78.4%

CERTIFICATIONS

- Mastering Svelte Fundamentals [\[Link\]](#)
- Generative AI Foundations Certificate Program by upGrad in collaboration with Microsoft.

TECHNICAL SKILLS

Languages : Java, C, Python(Beginner), HTML, CSS(Beginner)

Framework : Spring Boot

Databases : SQL, MongoDB

Soft Skills: Team Work, Critical Thinking, Leadership, Effective Communication, Creativity.

PROFESSIONAL EXPERIENCE

Meta Craftlab [\[Link\]](#)

Full Stack Developer

June 2024 - July 2024

- Developed responsive web interfaces using Svelte, enhancing user interaction and performance.
- Contributed to building and optimizing full-stack web applications, improving overall efficiency.
- Collaborated with cross-functional teams to refine UI/UX and implement scalable, user-friendly solutions.

Celebal Technologies

Summer Intern (App Modernization)

20 June 2025 - Present

- Gaining practical industry exposure and professional experience in a technology environment.
- Developing skills in project collaboration, communication, and problem-solving.

PROJECTS

University-Management-Project [\[Link\]](#)

- Developed a University Management System using Java and Spring Boot.
- Implemented role-based authentication for secure access control.
- Gained hands-on experience in backend development and database management.

Face - Finder [\[Link\]](#)

- Built a web application to detect and extract user photos from a large folder using face recognition.
- Used Python for facial recognition and integrated it with a Spring Boot backend.
- Created REST APIs for image upload and communication between frontend and backend.
- Developed the frontend using HTML and CSS for image upload and result display.
- Configured CORS and handled static files and responses in the Spring Boot application.

EXTRACURRICULAR ACTIVITIES

- Performed as a singer and guitarist in various college events and cultural festivals.
- Collaborated with fellow students to organize concerts and live performances.
- Developed strong teamwork, stage presence, and time management skills through regular rehearsals and live shows.
